HOME OFFICE/ZONING

The city regulates what businesses can and cannot be run from your home. In general, a "paperwork" business can be run from home. However, you are not allowed to put a sign up in your yard to advertise your business. You cannot employ more than one person outside the family, and the majority of the house must be used for living in. You are not allowed to run a business out of your home that involves selling out of your house or storing goods that are for sale in your house. Check with your local City Planning Office for zoning regulations before you sign a lease or buy property for your business location.

EMPLOYER REQUIREMENTS - STATE OF TEXAS:

TEXAS WORKFORCE COMMISSION (TWC)

The major functions of TWC include developing the workforce, providing support services including child care for targeted populations participating in workforce training and adult education and literacy services, providing services for people with disabilities to obtain training and employment, and administering the unemployment benefits and tax programs. TWC also provides information and analysis on shifts in occupations and industries within the state and seeks to reduce discrimination in employment and housing through education and enforcement of state and federal laws.

The unemployment benefits program, funded through employer taxes, provides temporary income to workers who have lost their jobs through no fault of their own. TWC collects unemployment taxes from liable employers and pays unemployment benefits to qualified claimants. TWC has a formal appeal procedure to address claim issues and employer tax liability, contribution or reimbursement disputes.

For employers, TWC offers recruiting, training and retraining, outplacement services, assistance recruiting and retaining qualified employees with disabilities, and valuable information on employment law and labor market trends and statistics.

WORKERS COMPENSATION INSURANCE

In Texas, private employers can choose to carry workers' compensation insurance coverage, but it is not required in most cases. A workers' compensation insurance policy provides lost wages and medical benefits to employees injured on the job. Except when gross negligence results in a fatality, coverage limits liability if an employee sues your business for damages. Resource: <https://www.tdi.texas.gov/wc/act/index.html>

Small Business Administration

The U.S. Small Business Administration (SBA) was created in 1953 as an independent agency of the federal government to aid, counsel, assist and protect the interests of small business concerns, to preserve free competitive enterprise and to maintain and strengthen the overall economy of our nation. We recognize that small business is critical to our economic recovery and strength, to building America's future, and to helping the United States compete in today's global marketplace. Although SBA has grown and evolved in the years since it was established in 1953, the bottom line mission remains the same. The SBA helps Americans start, build and grow businesses. Through an extensive network of field offices and partnerships with public and private organizations, SBA delivers its services to people throughout the United States, Puerto Rico, the U. S. Virgin Islands and Guam.

Coastal Bend Innovation Center at Texas A&M - Corpus Christi

The Innovation Center serves as a catalyst for innovative ideas by providing business advice for the entrepreneurial process and supporting the creation of sustainable, successful Coastal Bend businesses at every level of development. The Innovation Center plays a major role in promoting cross-disciplinary academic and entrepreneurial programs within the Texas A&M University.

The Business Incubation Program

Business Incubation is a supporting process that accelerates the successful development of innovative start-up businesses and growing companies by providing entrepreneurs with an array of crucial resources. The program consists of four levels:

- Pre-Incubation
- Incubation
- Acceleration
- Post Graduate

These mentoring services will be orchestrated by our business incubator staff and offered both in the business incubator and through its network of contacts. The main goal of the incubation program is to produce successful companies. Upon graduation from the Coastal Bend Incubation program, a start-up company will have the potential to create jobs, revitalize neighborhoods, commercialize new technologies, and strengthen both local and statewide economies.

Companies in the incubation program have access to appropriate rental space and flexible leases, shared basic business networks, services and equipment, along with technology support services. In addition, companies are provided with professional PhD level business mentoring, student internship programs, coursework modeling and interaction, educational classes and assistance in obtaining the financial stability necessary for company growth.
