## Collier Pool

It is our newly reconstructed 158,714-gallon outdoor pool featuring the Big Bucket Dunk! Come, enjoy the beach-inspired entry, experience the splash of the big bucket, fun wet-and-wild water features, picnic tables and relax under the gulf streams, or jump into the deep end! The pool also includes six lanes and is heated for year-round lap swimming. This \$2.5 million reconstruction project was made possible by voters who believed in the vision and passed for the 2012 City Bond!

## About the Public Art and Artists

The 16' high x 30' long x 10' wide fabricated galvanized steel sculptural canopy structure, entitled 'Wind and Wave,' is comprised of the silhouettes of Texas birds. It was designed and fabricated by artists Paul Seeman and Andrew Malczewski. Funding was made possible with Hotel Occupancy Tax Funds through the City's Percent for Art Program which is overseen by the Arts & Cultural Commission.
