*Protecting wild animals and preserving the environment are two ideals so seemingly compatible as to be almost inseparable. But in fact, between animal welfare and conservation science there exists a space of underexamined and unresolved tension: wildness itself. When is it right to capture or feed wild animals for the good of their species? How do we balance the rights of introduced species with those already established within an ecosystem? Can hunting be ecological? Are any animals truly wild on a planet that humans have so thoroughly changed? No clear guidelines yet exist to help us resolve such questions. — Bloomsbury.com*

- This program is **FREE** of charge.
- This program is open for individuals and families with children ages 12 and older.
- Our club will meet at our Learning Center at **2446 N. Oso Parkway, Corpus Christi, TX 78414.**
