Eco-Expert

Dr. Keisha Bahr

Assistant Professor – Texas A&M University – Corpus Christi

As a marine ecologist, Dr. Bahr's research interests are broad but focus on understanding how organisms react and adapt to natural and anthropogenic environmental stress. With the increase in frequency and severity of coral bleaching events, Dr. Bahr and her team have developed a coral health assessment card to help quantify coral bleaching, assess coral resilience, and educate the community about its impacts in Hawai'i. Results of this work have been integrated into the management strategies of the local state agency and have increased capacity for coral reef management through applied research.

- Class size is limited to 24 participants.
- This program is **FREE** and for individuals and families with children ages 12+.
- To reserve a space, please register at <https://register.ccparkandrec.com/>.
- Walk-ins are welcome on a first come first serve basis.

Meet at the Oso Bay Wetlands Preserve & Learning Center located at **2446 N. Oso Parkway, Corpus Christi, TX 78414.**
